International Taekwon-Do offers assistance to affected Canterbury quake members

As the clean up and restoration continues throughout the Canterbury region the International Taekwon-Do board and operational team on behalf of its members, wish to offer a gesture of support to the affected clubs directly involved within the devastated area, International Taekwon-Do Riccarton and Pulse Taekwon-Do Merivale clubs.

It is anticipated that offering those students affected directly by the Canterbury earthquake an exemption from the 2011 re-registration fee schedule, will in some evident way relay our support and reinforce our shared community, compassion and family spirit which is truly apparent within Taekwon-Do.

The Canterbury region is still receiving regular aftershocks as life slowly gets back to normal. It is clear that those affected will be kept busy dealing with the continual effects of this earthquake for some time to come.

The International Taekwon-Do community once again passes on wishes of support and concern for our students their families and friends dealing with difficult times ahead.

Yours in Taekwon-Do

Shaun Tolley *Operations Executive*
